

mirror collection

by kiko lopez

about the artist....

an interplay between the luminous, the translucent and the opaque, a fierce contrast of light and dark, interior and exterior.

kiko lopez trained in architecture and in industrial design at RISD, creating his early works in hand-blown glass. in 1990, he founded a design atelier in les beaumettes,

france specializing in pate de verre and other glass and sculptural techniques.

lopez is now focusing on monumental public installations using glass, crystal, and light.
